RE: Release of the Tipro configurator

Hello — and the rest of the Progmbh team,

thank you very much for all the effort, the support and the excellent cooperation that have made it possible for us to reach this point. We have met a number of challenges along the way; we have already overcome many of them, and some still lie ahead of us. All of it with the clear aim of offering the market something genuinely unique and of high quality. I believe we are on the right path and that together we are creating an excellent story.

We will test the configurator in detail and send you our feedback, together with any suggestions for improvement, as soon as we possibly can.

Thank you once again for your dedication and support. We look forward to working together further.

Kind regards,

Robert Jerčino*vi*č | Managing Director
